

Morgan Scientific, Inc. Pulmonary Function Laboratory

Name: Michael J. Callahan

Date: 12/28/2005

Diagnosis: Allergic Rhinitis

Age: 52

ID: 09413352

Physician: Colin Chapman, M.D.

Gender: Male

DOB: 7/2/1953

Referring: John Williams, M.D.

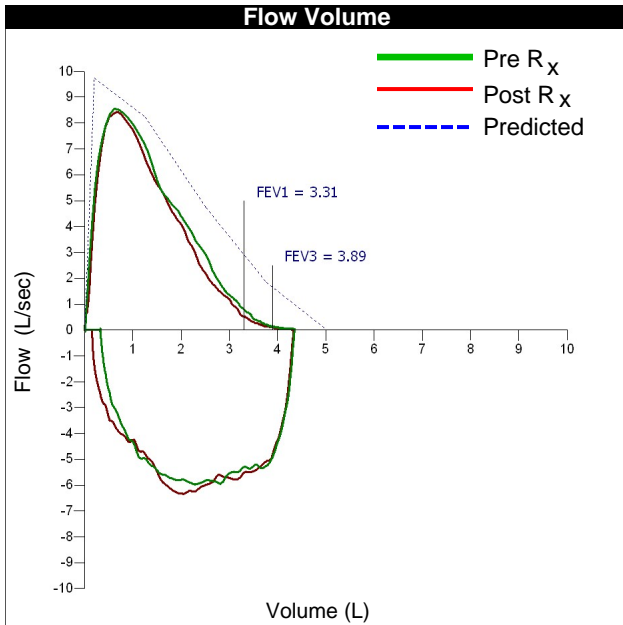

Race: White

Height: 178 cm **Weight:** 125.0 Kg

Therapist: Patrick Morgan

Spirometry

Parameter	Units	Ref	Pre	% Ref	Post	% Ref	% Chg
FVC	L	5.02	4.35	87	4.33	86	0
FEV1	L	3.88	3.31	85	3.19	82	-4
FEV1 / FVC	%	77	76	99	74	96	-3
FEF@%_&%	L/s	3.38	2.76	82	2.26	67	-18
PEFR	L/s	9.74	8.54	88	8.44	87	-1
FET	sec		10.33		13.80		34
FIF50	L/s		5.96		6.24		5
FEF%) / FIF%)			0.66		0.56		-15

Comments:

Patient was very cooperative

Interpretation:

These test results indicate normal pulmonary function.

IMPRESSION:

FEV1, FVC, and FEV1/FVC are within normal limits. There was not a significant response to inhaled bronchodilator. TLC and subdivisions are normal. RV/TLC ratio is increased. Resistance and specific conductance are normal. Single breath diffusion capnorr

Colin Chapman, M.D.
